

# I-Suite Version 4.0.0 Release Notes

Date: June 21, 2004

Release: I-suite 4.0.0

Description: The primary focus of I-suite this season was to enhance the data input and save methods to improve data quality. Each I-Suite application focused on changes to better meet the incident and business community needs. The secondary focus was to add user requested features. Please visit the I-Suite webpage for specific information on the installation process and user documentation <http://isuite.nwcg.gov>.
